2nd Regional Circular Economy Workshop in Western Macedonia, 18-20/10/2023

After the successful completion of the 1st Regional CE Workshop in Eastern Macedonia and Thrace last June, the 2nd one is coming up, co-organised by LIFE-IP CEI-Greece, the Green Fund, the Region of Western Macedonia, the Municipality of Kozani and DIADYMA S.A., in October 18-20, 2023, at the Koventarios Municipal Library of Kozani.

The workshop is taking place in the context of action C7.1 “Targeted Capacity Building Workshops” and will focus upon issues related to circular economy, through experiential learning techniques and exercises and the presentation of good practices from the project beneficiaries.

The workshop aims to train stakeholders that are summoned to develop and implement circular solutions in waste management such as municipalities, the industrial sector, SMEs, agricultural unions, professional bodies, local touristic associations, NGOs etc.

Action E1.9 Project Conferences

2nd Conference of LIFE-IP CEI-Greece “CE Implementation in Greece”

Thursday 16 November 2023, Municipal Hall, Municipality of Thessaloniki

10.00-17.30

The conference aims to present the objectives and the up-to-date results of the project, to the main stakeholder groups as well as the general public.

Stay tuned, further details will be announced soon in the project website: [Circulargreece](https://circulargreece.gr)

Action C3 for the Hazardous Household Waste in the Region of Western Macedonia.

An innovative programme for the separate collection of HHW has started to be implemented in the Region of Western Macedonia, in the context of action C3 «Full-scale implementation of separate collection networks and management of HHW” of LIFE-IP CEI-Greece, from DIADYMA S.A. For this reason DIADYMA S.A. organized a series of information days from April to September 2023, in the Region of Western Macedonia in collaboration with each municipal authority,

in the cities/towns of Kozani, Florina, Grevena, Kastoria, Siatista, Amyntaio, Nestorio and Prespes.

View here an information site dedicated on HHW, created by DIADYMA SA (in Greek): <https://eoa.diadyma.gr/>

International Thematic Workshop #2 | Agrofood waste & Bioeconomy

The Harokopio University organized with great success within its premises, the 2^o international thematic workshop of LIFE-IP CEI-Greece in the context of action E2.2 “European and International Thematic Workshops”, hosted by the 2nd International Conference “Retaste 2023”. In this workshop a number of experts presented their scientific findings and arguments for the stage of the agri-food sector, with regard to the strengthening of food loss and food waste prevention, both at political and practical (European) level, the improvement of food waste valorization in products of high added value, the development and implementation of technological and social innovations, the application of CE principles in the ecosystems etc. [Further Info and Programme](#)

C7.2 – 2nd Forum on Food Waste Prevention

A decisive meeting point for all the stakeholders involved, was the 2nd Forum on Food Waste Prevention in the catering and hospitality sectors, both in terms of defining, the national strategy for interventions and priorities and, the competitive advantages for each sectoral component.

The 2nd Forum was successfully organized by the Ministry of Environment and Energy and Harokopio University, in the context of action C7 “Capacity Building Actions” of the European project LIFE-IP CEI-Greece | CE Implementation in Greece, and has been widely attended by representatives of both public institutions as well as the hospitality and catering industry.

[Programme](#)

The action **Antiparos Circular Business** has been inaugurated in the island of Antiparos, implemented in collaboration with DAFNI Network in the context of LIFE-IP CEI-Greece. The action aims to reduce waste, and support recycling and the implementation of CE in local businesses of the catering sector.

PROJECT NEWS

2

1

In June 2023 representatives from the projects LIFE-IP CEI-Greece and [LIFE MiClicFeed](#) participated in a networking meeting aiming to strengthen the cooperation between the two projects. One of the main topics that was discussed was the preparation for a voluntary memorandum of cooperation in Crete (in the context of action C5 “Development of local/regional alliances for agri-food waste management”) with regard to the utilization of agri-food waste, in the production of innovative animal foods of high nutritional value.

3

The 2nd wave of the **Public Opinion Research** is in progress, in the framework of action E1 “Public Awareness, Involvement and Dissemination”. The results are expected to contribute towards monitoring the effectiveness of project actions.

2023

In the summer of 2023, two new spots, coordinated by HRA, have been completed for the project, focusing upon CE implementation in remote pilot areas, as well as food waste, respectively.

The spots of LIFE-IP CEI-Greece aim to disseminate the project objectives and results and to demonstrate best practices for further implementation.
