## C3.D3: HHW Monitoring Report for Western Macedonia - 2023

## Executive Summary

In the context of this Sub-action, the implementation period of the Household Hazardous Waste Management Plan as described during the implementation of preparatory action A.2.4 has begun. In the Region of Western Macedonia, the management system covers its 13 municipalities and more than 80% of the total population.

The report will be prepared on an annual basis in order to monitor the implementation of the Plan and in case of problems or deviations from the initial planning, corrective actions are indicated.

The Structure of the Report includes:

- ✓ The geographical region covered by the system.
- ✓ The description of the hazardous household waste collection and management system, including its
  - characteristics,
  - categories,
  - methods, and means of collection, transportation, and storage.
- ✓ The quantities collected during the reporting period.
- ✓ The evaluation of effectiveness.
- ✓ The problems and challenges.
- ✓ The proposals and recommendations for improvement.
