C3.D4: HHW Monitoring Report for Western Macedonia - 2024

January 2025

Executive Summary

As part of this specific Sub-Action, the implementation of the Hazardous Household Waste Management Plan continues as described during the implementation of preparatory action A.2.4. In the Region of Western Macedonia, the management system covers its 13 municipalities and over 80% of the total population.

The report is compiled annually to monitor the implementation of the Plan, and in case of problems or deviations from the original design, corrective actions are suggested.

The structure of the Report includes:

- The geographical area covered by the system
- A description of the hazardous household waste collection and management system, which includes:
 - o Characteristics
 - o Categories
 - o Methods and means of collection, transportation, storage
- The quantities collected during the reporting period
- The evaluation of effectiveness
- Problems and challenges
- Proposals and recommendations for improvement
