

## Executive Summary

The Deliverable E1.D12 “Report on the 1st set of Regional Info-Days” compiles a synopsis of five (5) regional info-days of LIFE-IP CEI-Greece “Circular Economy Implementation in Greece” held in five Regions of Greece (one in each Region) between June 2022 and March 2024: Region of Western Macedonia, Region of Eastern Macedonia-Thrace, Region of North Aegean, Region of Central Macedonia and Region of South Aegean.

The main objective of the Info Days was to inform stakeholders, target groups and the general public about LIFE-IP CEI-Greece actions and novelties, as well as about the methods of waste management, prevention and circular economy in each Region.

Most Info-Days were implemented in conjunction with the three-day Regional Capacity Building Events for circular economy foreseen in Action C7 “Capacity Building Actions” – Sub-Action C7.1 “Targeted Capacity Building Workshops”.
