E3.D2 Good practice guide on municipal demonstration actions based on the LIFE-IP CEI Greece experience'

Executive Summary

This guide concerns the Good Practices that took place in the pilot Municipalities of the LIFE-IP CEI-GREECE project. The purpose of this deliverable is to highlight the knowledge obtained from the implementation of pilot actions of the project. Specifically, the Guide:

- transfers the acquired experience of the application and implementation of the project's actions
- seeks the awareness of citizens and the participation of stakeholders
- aims to disseminate and reproduce what was implemented and led to positive results

The purpose of the guide is to capture the experiences and results as well as to record the good practices that emerged during the implementation in order to be promoted at National level.

In this deliverable, the actions of the pilot areas are recorded, which essentially constitute good examples of the management of waste streams and can be reproduced, the problems that may have arisen, the optimal solutions that were given, the parameters, the results and the dissemination and awareness actions.
