C6.D2: 1st biannual report on the implementation, progress and impact of the indicators in financial instruments and funding tools

Executive Summary

This report refers to the actions and processes carried out in the period 04/2023-04/2024 for the financing of the Circular Economy (CE) technical specifications, incorporating standards and monitoring indicators into financing programs.

Specifically, the first results of the petitions made to the financing program "Environmental Balance Actions" of the Green Fund, in Priority Axis 2 (A.P.2) "Urban Revitalization & Other Environmental Balance Actions" are presented, in which CE standards and indicators have been incorporated.

In the second chapter, the communication actions of the action are presented, where they present the methodology and the results of the application of CE standards and indicators in funding so that other financial institutions can apply it and the action can have a multiplier effect.
