PRESS RELEASE

Online Workshop on the Separate Collection and Management of Hazardous Household Waste

Terra Nova, in collaboration with the Ministry of Environment and Energy (MEEN), is organizing an interactive online workshop on 10 November focusing on the **separate collection and management of Hazardous Household Waste (HHW)**, within the framework of the European project LIFE-IP CEI-Greece on circular economy.

The workshop will highlight both the current situation and challenges in HHW management in Greece, as well as good international practices that can serve as a guide for local authorities and waste management bodies.

- Presentation of the Greek framework and practical implementation examples
- International experiences and innovative practices

Don't miss the opportunity to get informed and take an active part in the discussion on building a safer and more sustainable waste management system!

👉 [Register here and be part of the change towards a more circular Greece!](#)

Program

Start Time	End Time	Topic	Speaker Details
10:00	10:15	Opening of the workshop	Ioannis Spanos, Chemical Engineer, NTUA, Terra Nova Ltd

About the "LIFE-IP CEI-Greece – Implementation of the Circular Economy in Greece" Project

The **LIFE-IP CEI-Greece Implementation of the Circular Economy in Greece** project aims to contribute to the implementation of the National Waste Management Plan, the National Waste Prevention Program, and the National Circular Economy Strategy. This initiative promotes a new approach to waste management based on circular economy principles by adopting best practices and behavioral changes to extend product lifecycles, convert waste into resources, and effectively implement the EU's waste legislative package.

More information about LIFE-IP CEI-Greece – Circular Greece "No time to waste " is available at the project's website: www.circulargreece.gr , and on social media:
