C5.D4: 4th Progress report of the alliances' activities

Summary

Alliances are formulated at local and/or regional level with the aim of promoting voluntary agreements for the valorization of waste from the agri-food sector, based on the principles of the Circular Economy, aiming at the transformation of waste into value-added products and recognizing biodegradable waste as a stream with high potential for circularity of agriculture and agro-industry.

This 4th report outlines the actions taken to implement Action C5 - Development of local/regional alliances for managing agri-food waste from November 2025 to October 2026.

The report presents the methodological approach and the road map for the implementation of the action, as well as the results of the project produced within this period of time.
